

## **About Whirple**

Whirple is a pop-up event experiences platform that helps creators identify and connect with up to 15 superfans and monetize their downtime when they travel. With Whirple, creators and their representatives can self-organize intimate unique experiences at exclusive venues. They can also retarget superfans who come to them long after the experience ends.

Microsoft USA selected Whirple as one of 65 tech startups globally to sponsor and closely support. We work closely with Microsoft and they give us full access to their consultants, webinars tool and technology and access to training webinars in all technologies. A successful student would also gain access to this knowledge base!
